

Correct To Operate

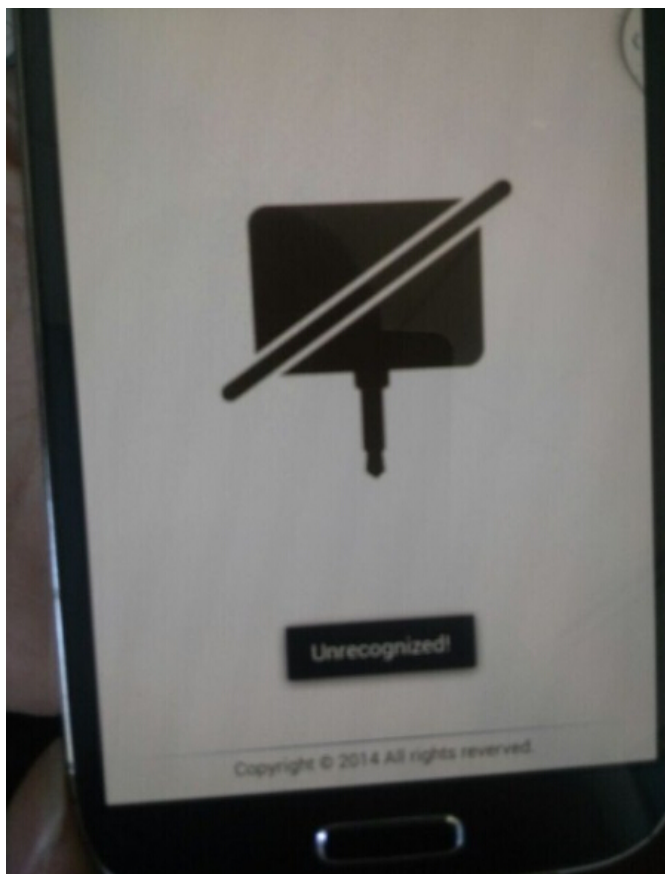

RFID HF UHF Ear-Jack Reader In Your Smart Phone

It will be found very frequency problems in how to correctly use our Ear-Jack Smart Phone Reader to connect with your Smart Phone. So by now we produce a introduction for usage reference and correct your operation for the first use of every smart phone.

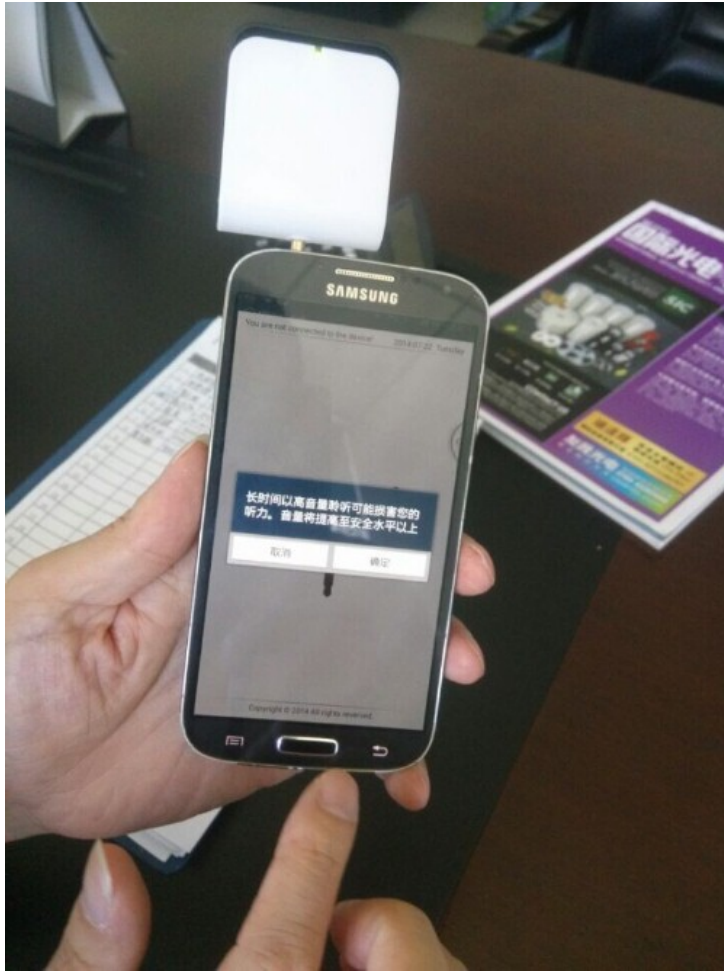

It normally happend in Andriod Operation System like Samsung X4, X5.

- Insert Smart Phone into Ear-Jack Socket
- A Notice Of Authorization To Control Your Phone Media Value Is Appeared
- Press "Yes" Allow Reader To Operate Your Phone
- Reader Should Be Ready For Use

Because of wrong operation, the reader was rejected for use by your phone.

With Right Plug-in And Right Operation, Allow Reader Works On Your Phone.

Reader Was Ready For Use Properly
